April 3, 2018

INVITATION TO COMMUNITY BUDGET MEETING

The Board of Education of School District No. 63 (Saanich) invites you to a:

Community Budget Meeting
Wednesday, April 11, 2018, 7:00 p.m.
Bayside Middle School, Multi-Purpose Room

The Board of Education and the Saanich School District would be pleased to have you join us to participate in and contribute to the formation of our budget for 2018/19. Participation by our school communities and the public in this process is important for the Board's adoption of a budget that reflects the values, beliefs and priorities of the community.

In past years, there were two separate meetings for school communities and for the public. This year these meetings have been combined to provide for one well attended meeting where the public has the opportunity to hear from our school communities and vice versa. This will also allow for a more meaningful public consultation.

The evening will include a presentation on the budget process, the history of funding and related budget implications, and on the current budgeting context. There will be time for questions and answers, and also an opportunity to provide your input through a table talk session with reporting out.

We hope to see you there.

Sincerely,

Jason Reid
Secretary-Treasurer

Victoria Martin
Chair, Saanich Board of Education
