

To kick off our study on immigration, students are invited to bring in items to share their family's culture(s), traditions, customs, background, interests, etc. Anything that shares the story of your family.

Who are you?
Where did your family originate?
When did your family come to Canada?

You can send objects, artifacts, food to share (nut-free), clothing, and/or photographs that relate to your family culture and identity. In class we will be taking note of the diversity, similarities, and map where our families come from to kick off our study on immigration. You can bring in your 'suitcase' at any point in January.

See Miss Norris if you have any questions.
